

GREENHOUSE
AQUATECH

It's All About **Water**

Elevating Purification Standards **Drop By Drop**
Demineralization Plant (DM Plant)

Innovative. Sustainable. Pure.

Welcome to **GREENHOUSE AQUATECH's**

Demineralization Plant (DM)

Discover our specialized Demineralization Plant (DM), meticulously designed to meet the demanding needs of industries requiring high-purity water. At **Greenhouse Aquatech**, we blend cutting-edge technology with an unwavering commitment to environmental responsibility, ensuring pure water production while minimizing waste and energy consumption.

What is Demineralised Water?

Demineralised water is specially purified water that has had most or all of its mineral and salt ions removed. Such as Calcium, Magnesium, Sodium, Chloride, Sulphate, Nitrate and Bicarbonate.
Electrical Conductivity < 2.0 $\mu\text{S}/\text{cm}$

Greenhouse Aquatech **Every Feature Matters**

**Advanced Technology,
High-Quality Water**

Our Demineralization Plant harnesses state-of-the-art technology to meticulously eliminate mineral ions, delivering water of superior quality.

**Tailored Solutions,
Enhanced Efficiency**

Customized solutions cater to diverse industry needs, optimizing purity levels with precision while driving energy efficiency & operational cost reduction.

**Reliable Performance,
Consistent Quality**

Robust systems and quality components guarantee unwavering performance, ensuring reliability in every drop of water produced.

Impactful Benefits, Transformative Results

Purity

Obtain the highest purity water for critical industrial processes.

Cost-Effectiveness

Lower operational costs and minimized maintenance.

Environmental Responsibility

Champion sustainable water treatment practices, reducing the environmental impact.

Versatile Applications, Limitless Possibilities

Greenhouse Aquatech's Demineralized Water finds utility across various sectors

Agriculture

Facilitating optimal plant growth in greenhouse farming.

Hospitality

Providing high-quality water in hotels, spas, recreational facilities.

Industrial Processes

From manufacturing to pharmaceuticals & power generation.

Laboratories

Essential for precise experiments & research.

Your Partner in Eco-Forward Solutions

At **Greenhouse Aquatech's**, sustainability is our ethos:

Resource Efficiency

Minimize water and energy consumption with optimized processes.

Waste Reduction

Implement eco-friendly practices to curb waste generation.

Green Technology

Embrace environmentally friendly technologies to reduce our carbon footprint.

Partner with Greenhouse Aquatech, We are contributing to our joint commitment to nature's preservation and sustainability. Join us in fostering eco-friendly practices, creating a greener world together.
